**Lincoln Area Region** 

### **July 2020**

Healthy buyer demand and constrained supply continue to be the story for much of the country. Nationally, showing activity in July remained substantially higher than a year before and multiple offer situations are a frequent experience in many markets. With the inventory of homes for sale still constrained, a competitive market for buyers shows little sign of waning.

New Listings decreased 5.7 percent for New Construction and 5.0 percent for Existing Homes. Pending Sales increased 46.7 percent for New Construction and 19.7 percent for Existing Homes. Inventory decreased 19.6 percent for New Construction and 42.2 percent for Existing Homes.

Median Closed Price increased 12.9 percent for New Construction and 11.3 percent for Existing Homes. Days on Market increased 31.1 percent for New Construction and 6.7 percent for Existing Homes. Months Supply of Inventory decreased 22.9 percent for New Construction and 50.0 percent for Existing Homes.

While the number of unemployment insurance weekly initial claims have been far lower in recent weeks than their peak in March and April, more than 1 million new claims are still being filed each week and more 31 million were claiming benefits in all programs as of early July, compared to fewer than 2 million in July 2019. Despite this significant economic impact, home buyers remain extremely resilient. With mortgage rates remaining near record-low levels and home purchase mortgage applications up from a year ago, high buyer activity is expected to continue into the late summer and early fall market.
