## November 2020

November saw the Dow Jones Industrial Average top 30,000 for the first time, while mortgage rates reached new record lows again. These new records have provided encouragement for buyers to move forward on home purchases, which continued to remain strong overall for the month.

New Listings increased 11.8 percent for New Construction but decreased 8.9 percent for Existing Homes. Pending Sales decreased 2.3 percent for New Construction but increased 1.8 percent for Existing Homes. Inventory decreased 19.6 percent for New Construction and 57.3 percent for Existing Homes.

Median Closed Price increased 9.9 percent for New Construction and 18.1 percent for Existing Homes. Days on Market decreased 43.0 percent for New Construction and 52.4 percent for Existing Homes. Months Supply of Inventory decreased 37.3 percent for New Construction and 62.5 percent for Existing Homes.

Showing activity remains higher than the same period a year ago across most of the country, suggesting that strong buyer demand is likely to continue into what is typically the slowest time of year. With inventory remaining constrained in most market segments, sellers continue to benefit from the tight market conditions.
