- 03-14-25: **RESOLVED:** Data Feed Issue Affecting Website Display - The Paragon team has reported that the feed issue preventing new listings and listing updates from displaying on some websites has been resolved. Please note that the time it takes for each website to update varies. We will continue to monitor it to ensure it's resolved.

Please note that earlier this week, we received a few reports of some newer listings missing photos on Zillow. That issue is not related to the data feed issue above. It is an issue with Zillow that they are working on resolving. We will continue monitoring it and will provide an update when one is available.

- 03-14-25: **UPDATE:** Website Display Issues - The Paragon team is continuing to actively work on a resolution to a data feed issue preventing new listings, listing updates, and some photos from being available for display on some websites. We will continue to provide updates as they become available.
- 03-14-25: **NOTICE:** Website Display Issues - We are currently experiencing a problem with the Paragon MLS system that is affecting the display of listings in some data feeds. Consequently, 'New' listings, changes to listings, or photos may not appear on external websites. The Paragon team is actively investigating the cause to resolve the issue as quickly as possible. Thank you for your patience and understanding.
